

# ELETTROMECCANICA TADDEI

## PLUG POWER SUPPLY

19V TRADITIONAL POWER SUPPLIES

### Standard FEAUTURES

Vin = 210/245V A.C.

Frequency = 47..64Hz

Vout = 19V D.C.

Iout = 200mA continuous 300mAx20sec.

Pout = 3W continui

Performance >80%

Ta = -10..+40°C

Weight = 150g

Protections = overload, short circuit and over temperature

Power supply warning with red LED and signal presence

Absorption of network load 0,8W (with led)

EMI conducted = compliant CISPR22B / EN55022B

Security = conpliant EN 60950-1 class II (double insulation, does not require connection of P.E.)

*N.B. The mechanical and/or electrical characteristics in the tables may vary without notice*
